PROFESSIONAL SUMMARY

Full-Stack Software Developer with **2+ years of professional experience** at Virtusa, building enterprise-grade Java Spring Boot APIs and React frontends for the **Citi banking platform**. Experienced in delivering complete web and mobile products independently — from client requirement to deployment. Strong grasp of OOP, REST architecture, and cross-platform mobile development. Currently seeking a **product engineering role** where clean code and product thinking combine.

TECHNICAL SKILLS

Languages	Java · Python · TypeScript · C	**Frontend**	React · React Native · Flutter · TypeScript
Backend	Spring Boot · Node.js · REST APIs · Java EE	**Databases**	MySQL · PostgreSQL · Hibernate / JPA
Dev Tools	Git · IntelliJ IDEA · VS Code · Android Studio	**Creative**	Blender · Unity · Unreal · Adobe Suite · Figma

WORK EXPERIENCE

Freelance Full-Stack Developer
Self-Employed
Oct 2025 – Present
Puducherry, India (Remote)

- Designed and delivered a full SaaS QC & Report Management application for a precision tools manufacturing company using React Native — features include real-time inspection logs, defect tracking, and automated PDF report generation.
- Built a production B2B company website in React, optimized for performance, SEO, and mobile responsiveness — deployed for active B2B client use.
- Developed a community-facing Android app (Daily Vegetable Price Tracker) with live market price data for local users.
- Managed full project lifecycle independently: client requirements, architecture decisions, development, testing, and deployment.

Associate Engineer — Full Stack Java Developer
Virtusa (Client: Citi)
Aug 2023 – Sep 2025
Puducherry, India

- Developed and maintained RESTful APIs using Java Spring Boot for Citi's enterprise banking platform, ensuring high availability and strict compliance standards.
- Built responsive React frontends integrated with Spring Boot microservices, delivering seamless user experiences across banking modules.
- Participated in Agile sprints — daily standups, sprint planning, code reviews, and retrospectives in a cross-functional team environment.
- Gained hands-on experience in the BFSI (Banking, Financial Services & Insurance) domain with exposure to enterprise-scale Java systems.

Internships

2022

VEI Technology · Askan Technology

Puducherry, India

- VEI Technology: Completed IoT internship — built hardware-to-cloud sensor data pipeline and submitted project report.
- Askan Technology: In-plant training in Flutter cross-platform mobile development.

KEY PROJECTS

Precision Tools QC & Report Manager · *React Native · Mobile · Manufacturing SaaS*

- Full quality-check and report management app for a precision tools manufacturer — real-time inspection logs, defect tracking, and automated PDF report generation built for the shop floor.

Appverse Application · *Android · Java · Firebase*

- Android application enabling college students to interact with professors — assignment submissions, announcements, and real-time notifications.

AudioBook Application · *Android · Accessibility*

- Accessibility-focused Android app designed for learning-disabled students and second-language learners — text-to-speech, adjustable playback, and offline support.

Abstraction Based Text Summarization · *Python · NLP · Web App*

- Web application for investigation officers to summarize large volumes of articles using NLP-based abstractive summarization — reduces reading time significantly.

EDUCATION

B.Tech — Information Technology
Manakula Vinayagar Institute of Technology, Puducherry

CGPA: 8.34
Graduated 2023

CERTIFICATIONS

- Oracle Certified Associate, Java SE 8 Programmer
- Talent-Next Java Full Stack Development Course (May – Oct 2022)
- JavaScript Essentials 1 — Online Certification
- Linux Training — Spoken Tutorial, IIT Bombay
